

COVID-19 VACCINE UPDATE

To address the current COVID-19 public health concerns, the Kauffman Center for the Performing Arts, in partnership with the Kansas City Ballet, Kansas City Symphony, Lyric Opera of Kansas City and Harriman-Jewell Series, will implement new COVID-19 protocols.

Effective Sept. 6, all individuals who enter the building to attend a public performance must provide proof of full COVID-19 vaccination. Masks will also be required, regardless of vaccination status, while inside the building, except while eating or drinking in designated areas. This policy applies to all patrons, event staff and volunteers.

At the current time, we are unable to accommodate children under 12, or any unvaccinated guests, event staff or volunteers for public performances. We continue to evaluate the ever-changing circumstances in hope that children under 12 years of age can safely attend public performances in time for the holiday season.

“Full vaccination” means the day of the performance is at least 14 days after the first dose of a one-dose COVID-19 vaccination (Johnson & Johnson) or at least 14 days after the second dose of a two-dose COVID-19 vaccination (Pfizer or Moderna). There will be no exceptions.

The safety of our guests, staff and volunteers is of the utmost importance to us.

We plan to continue sharing updates and information and encourage you to visit our website for more details. For a complete schedule of the performances impacted by the new COVID-19 protocols at the Kauffman Center visit [kauffmancenter.org](https://www.kauffmancenter.org).
